High Quality Door Protection at a Fair Price.

In our Fort Myers, Florida factory, quality-control occurs at every step of the fabrication process. From inspection of raw materials right through packaging—each product is continually checked to ensure the highest quality—which enables us to provide you with the best product at a fair price.

Choose 16 or 18 Gauge Stainless Steel — and Variety of Other Options.

Our **18 gauge stainless steel** offers handsome protection in professional settings such as office buildings and retail stores. For industrial and commercial settings our **16 gauge stainless steel** products are perfect to stand up against daily rigorous use. Choose **Counter Sunk Holes** for use with flathead screws, or clear holes with Truss Head screws, both available in Phillips or Torx-Pin Security (included). Other mounting options include Factory-applied permanent 3M Tape, or Factory-applied Magnetic Sheet. **Need rounded corners or a bevel?** No problem: we provide that as well.
